

How can I verify if the HOTAS Cougar has been installed correctly on my computer?

You can check that it is the case from Windows **Device Manager**:

- Right click on **MY COMPUTER** icon on your desktop and select **Properties**
- If you are using Win 98 or ME: Select the **Device Manager** tab
- If you are using Win 2000 or XP: Select the **Hardware** tab, then click on the **Device Manager** button

Using the latest drivers, you should normally get the following elements:
